PRODUCT INFORMATION

EutroSORB® SI is an iron-coated lanthanum solution developed specifically to target and prevent phosphorus release from anaerobic lake, reservoir, pond, river, stream, canal and wetland sediments. EutroSORB® SI is activated in anaerobic conditions and can be mixed with surface water before application.

KEEP OUT OF REACH OF CHILDREN

Read all FIRST AID and directions on label before use.

Please consult the Safety Data Sheet (SDS) for additional information. Treatment with this product will not by itself make water potable. For applications in waters destined for use as drinking water, those waters must receive additional and separate potable water treatment.

Precaution: Avoid ingestion, inhalation, contact with eyes and skin. Wear chemical resistant gloves and eye protection when handling.

DIRECTIONS FOR USE

For best results, dilute with water from the waterbody and distribute uniformly over the surface of the waterbody, or the area targeted for application. Under certain conditions EutroSORB SI may also be applied directly to the water based on management objectives and site conditions. For site specific rate and treatment recommendations, contact SePRO Corporation at 1-800-419-7779.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in original container and keep closed. Store in a dry place.
